Title: Standard for the Flammability of Children's Sleepwear: Sizes 0 through 6X; and the Standard for the Flammability of Children's Sleepwear: Sizes 7 through 14

OMB Number: 3041-0027

Type of Review: Renewal of collection

Frequency of Response: On occasion

Affected Public: Manufacturers and importers of children's sleepwear

Estimated Number of Respondents: Based on a review of past firm inspections, and published industry information, approximately 50 large domestic companies manufacture most of the children's sleepwear produced in the United States. In addition, there may be up to 1,000 small domestic producers of children's sleepwear. Accordingly, there may be as many as 1,050 firms that manufacture children's sleepwear in the United States. There are also approximately 4,500 importers (which may include some of the domestic manufacturers) that supply children's sleepwear to the United States market.

Estimated Time per Response: The 50 large domestic manufacturers and the 100 largest importers may each introduce an average of 100 new children's sleepwear items annually. Testing and recordkeeping of each item is approximately 3 hours. The annual

burden for the 50 large domestic manufacturers and the 100 largest importers is estimated at 45,000 hours for testing and recordkeeping (150 firms x 100 items x 3 hours). The remaining 1,000 manufacturers and 4,400 importers have on the average 10 new children's sleepwear items annually, for a testing and recordkeeping burden of 162,000 hours (5,400 firms x 10 items x 3 hours.)

Total Estimated Annual Burden: The total estimated potential annual burden imposed by the flammability standards on all manufacturers and importers of children's sleepwear is approximately 207,000 hours (45,000 hours + 162,000 hours).

Description of Collection: The Standard for the Flammability of Children's Sleepwear: Sizes 0 through 6X (16 CFR part 1615) and the Standard for the Flammability of Children's Sleepwear: Sizes 7 through 14 (16 CFR Part 1616) address the fire hazard associated with small-flame ignition sources for children's sleepwear manufactured for sale in or imported into the United States. The standards also require manufacturers and importers of children's sleepwear to collect information resulting from product testing, and maintenance of the testing records. 16 CFR part 1615, subpart B; 16 CFR part 1616; subpart B.

Dated: February 17, 2016.

Secretary, Consumer Product Safety Commission.
